# POWER YOUR LANDSCAPING JOBS

Residential and commercial properties are moving outdoors, and the need for landscaping services has grown steadily during the past decade to meet this demand. As your customers seek to enhance their outdoor spaces, they need a professional landscaper that has the right tools to complete their project, whether its a simple upgrade or complex landscape makeover.

Let Vermeer landscape equipment be your strategic ally in beautifying properties, as well as public spaces; creating green areas, patios, irrigation systems, yards, pathways or projects that require maintenance and care. Whether it is spring, summer, fall or winter, go the extra mile using reliable equipment with applications that can serve all season, year-round.

# THE RIGHT TOOL FOR THE JOB

---

Vermeer is determined to make its family of mini skid steers the most productive, operator-friendly units in the industry. With different size and power options, the Vermeer lineup of mini skid steers can answer your most challenging customer needs. Characterized by easy-to-use, single pilot-operated joysticks and a high track mounted sprocket design, Vermeer brings benefits in operator comfort, safety, productivity and reliability.

## THE VERMEER ADVANTAGE

- The single pilot-operated joystick offers the operator a smooth range of motion as opposed to multiple control levers.
- The undercarriage features a high-mounted track sprocket. The higher mounting reduces premature wear and tear in rocky and sandy soil conditions, while the cast sprocket is heat-treated for longer life.
- Select models are equipped with dual hydraulic auxiliary adding a low-flow option to the hydraulic circuit to efficiently power demanding attachments exclusively designed for the toughest landscaping jobs.

# IT'S ALL ABOUT MULTITASKING

---

Mini skid steer attachments are designed for strength, durability, versatility and value. They allow your mini skid steer to be a loader, trencher, auger and much more, within a single unit. The array of attachment options offered by Vermeer provides a complete solution for your landscape jobs.

## THE VERMEER ADVANTAGE

- Featuring a universal mounting plate, mini skid steer attachments are easy to hook up so you can keep your job moving.
- Strategic alliances with key attachments manufactured by other companies\* increase the variety and offering of products that can be utilized with a Vermeer mini skid steer.
- Dedicated landscaping attachments are available to help you get the job done in the most efficient way.

\*Attachments are manufactured by Vermeer, Paladin Attachments or STEC Equipment.

# PROVEN SOLUTIONS FOR INSTALLATION NEEDS

---

Trusted for generations by landscapers and experts in irrigation systems, the Vermeer lineup of pedestrian trenchers offers a proven solution to a range of installation needs. These machines are designed to be durable, with convenient access to maintenance points. A variety of boom length and chain options are available to tackle most digging conditions and installation requirements. With a lineup of flexible power options, user-friendly controls and cutting-edge design, Vermeer pedestrian trenchers match multiple worksite conditions.

## THE VERMEER ADVANTAGE

- With the VZ steering system, operators can turn the machine using only the handlebars instead of additional levers. These bars also allow you to apply additional leverage when operating in difficult terrain.
- A compact design allows units to work in tight areas and pass through most gates.
- All models feature an optional backfill blade to aid in jobsite restoration and efficiently fill the trench.

## THE RIGHT TECHNIQUE FOR STUMP REMOVAL

---

To help improve the aesthetics of landscape work, professionals need to remove stumps - and Vermeer has the equipment to effectively complete this step. Vermeer revolutionized the backbreaking, time-consuming job of stump removal with the introduction of the first stump cutter in the market. With a combination of compact design, ease of operation, power, agility and toughness, the full line up of Vermeer stump cutters is ready to take the challenge on any stump.

### THE VERMEER ADVANTAGE

- The exclusive SmartSweep™ control system\* monitors engine load and provides continuous feedback resulting in a smooth and more consistent cutter wheel sweep rate.
- The proprietary Yellow Jacket™ cutter system is designed to provide faster, easier serviceability, as well as extended pocket and tooth life.
- The tracked undercarriage\* provides reduced ground pressure to minimize ground disturbance.

\*Available on select models.

# ACCOMPLISHING BIG JOBS IN SMALL SPACES

---

Designed with the professional landscaper in mind, the complete line of Vermeer brush chippers makes easy work of reducing branches and brush. Compact, transportable and light to reduce ground disruption, these powerful machines combine versatility and exclusive features that promote operator safety, ease-of-operation and quality performance for a variety of jobsites.

## THE VERMEER ADVANTAGE

- Maintain productivity and reduce strain on vital engine parts with the SmartFeed system which monitors engine speed and stops or reverses feed rollers when needed.
- A large rectangular feed opening reduces time spent making extra cuts to material.
- Combined with the patented bottom feed stop bar is the four-position upper feed control bar with dual stop positions and forward/reverse feed positions. Mounted over the feed table, it enables the operator to stop the feed rollers and select forward or reverse operations. Dual reset/hold-to-run buttons allow the operator to readily reset the bottom feed stop bar.

# LOCAL SUPPORT

---

When it's on the line, you require a partner who can provide the support and technology solutions to help keep your job productive. Vermeer is ready to stand behind your next project – no matter where it takes you – with local expertise and dealer support.

## THE VERMEER ADVANTAGE

- Specialized training, certified parts, service and warranty programs are just a few of the resources Vermeer offers to the customer.
- The Vermeer dealer network is committed to helping you realize the full value of your machines by understanding your challenges.
- Flexible payment schedules and a variety of financial solutions are available to help meet your business situation.

Your personalized equipment and support plan awaits.
