Vermeer® TM850 Trailed Mower Radio

:60 Second Radio – TM850 Trailed Mower Radio Commercial

Hello. I'm _____ with _____ in _____ here to explain why more and more of our forage growing customers have been switching over to these new hitch-n-go disc-style trailed mowers we sell here at _____! These are the ones you can run with lower horsepower tractors ... and use less fuel. Plus, they're easy to set up and operate ... and their unique trailed mower design not only makes it easy on you. It also makes it easier on the mower. BUT, YOU HAVEN'T SEEN ANYTHING YET until you see the new TM850 Trailed Mower from Vermeer. It has a self-aligning driveline and a ten-and-a-half foot, low-profile cutterbar with a nitrogen-charged hydraulic suspension system for unmatched flex and ground-hugging control on slopes and rugged terrain. And that's just for starters! Do yourself a favor. Give me a call, or stop by _____ and take a look at the new TM850 Trailed Mower from Vermeer, because there's not enough time in this commercial to do it ... justice **(Announcer gets cut off!)**
