Vermeer® VR-Series Carted WheelRake Radio

:60 Second Radio – VR-Series Carted WheelRake Radio Commercial

Next time you decide to purchase another wheel rake for your haying operation ... change your expectations. Start looking for big capacity rakes with high-clearance frames and toolbars with adjustable hitch heights to reduce plugging, even in the heavy first-cut crops. Look for splitter wheels that improve dry-down and help balance moisture content throughout the entire windrow by turning the hay in the center of the swath. Make sure you can switch between single and double-sided raking without making a lotta changes. And to make it even simpler, look for rakes that are easy to adjust without using wrenches or, better yet, without using any tools at all! And when you do, you'll find 'em at _____ in _____
_____ dealer name location. Because that's where the best wheel rakes are. The new VR Series Carted from Vermeer, now available from _____
_____ dealer name ... with raking capacities over 24-feet wide. Sold by the people who really know hay equipment.
