

GO THE DISTANCE.

The Vermeer Catapult® CPX9000 bale processor gives operators the ability to process and distribute forage materials consistently and accurately at long distances (up to 100 ft [30.5 m]) – making it ideal for livestock bedding and erosion control applications. It also has the versatility to adjust throw distances and control how the spout is angled to properly distribute the material. However you process it, wherever you put it – this bale processor is built to go the distance.

The Catapult CPX9000 bale processor is available only at participating dealers. Vermeer Corporation reserves the right to make changes in engineering, design and specifications; add improvements; or discontinue manufacturing or distribution at any time without notice or obligation. Equipment shown is for illustrative purposes only and may display optional accessories or components specific to their global region. Please contact your local Vermeer dealer for more information on machine specifications.
